

Rongomai School

Empowered to Take Risks; Determined to Succeed

Friday 20th March, 2020

Kia ora Whanau,

We've had a few students report to our sick bay with score sores and scabies today. Please know that we have acted quickly and have organised to get all classroom carpets treated, disinfected and steam-cleaned to prevent any further spread of infection.

If you discover that your child has scabies or school sores, please keep them at home and seek the appropriate medical treatment. Please do not send them back to school if they haven't received any treatment from your doctors.

Thank you for your cooperation and understanding.

Kia manuia,

Whaea Paeariki Johnson
Principal
